

“... they have so much fun that time flies ...”

Aitor the dinosaur

A show created by

TEATRE NU

Age: +2

Indoor Show

Aitor the dinosaur is a puppet show for children. A simple, emotional, clear and poetic story. It's a show that focuses on a friendship, in a universe of complicity and trust between a girl and her favourite dinosaur. This show puts the real and the fantasy world of children on the same stage, telling a story where the most important thing is feeling the helping hand of a close friend.

Synopsis: Martina is a redheaded, brave little girl. Aitor is a blue and white dinosaur with white spikes. They are inseparable friends. They share their dreams, games and adventures. What would Martina do without Aitor? And Aitor without Martina? We hope they will never be separated. But ... and if they had to one day? Enjoy the games and adventures of Martina and her great friend: Aitor the dinosaur.

The company of Teatre Nu

We are a collective of performing arts professionals who create and tour performing our own work. In twenty years of history we have created nineteen shows and we have made more than two thousand performances. We see the theatre as a community art, in which the sum of individual talents make each new project grow.

We are from Sant Martí de Tous, a little town in the Anoia region, from where we look to export our project everywhere. The space where we work, The House of Teatre Nu is a venue open to the public and professionals to welcome concerns, ideas, projects and multiple sensitivities.

Currently, we have more than a dozen shows going on at any given time.
